WELCOME HOME

At Oakleaf Stoves, we believe warmth is more than heat it's the heart of a home. From our earliest days as a small family business, we've grown into a trusted name in the stove industry, known for combining traditional craftsmanship with modern innovation.

Each stove reflects our commitment to quality, care and sustainability, ensuring that every Oakleaf stove delivers comfort, style and lasting performance.

Our story is one of steady growth and dedication. What began with just a few handcrafted models has expanded into a full collection of wood burning and multifuel stoves, designed to suit homes of every size and style.

Today, our stoves are enjoyed by households across the country, admired for their efficiency, durability and timeless design.

We remain true to our values of honest workmanship and customer care principles that have guided us since the beginning.

Oakleaf stoves are built for the future as well as today. With Ecodesign certification and advanced clean burn technology, they meet the highest standards for efficiency and low emissions while retaining the charm of a real fire.

From the compact Farrow to the larger Birchley XL, our collection offers something for every home, all with the reassurance of Oakleaf's signature quality.

Choosing an Oakleaf stove means investing in more than a heating appliance it's a choice for dependable warmth, sustainable living and a piece of craftsmanship that will be part of your family life for years to come.

BEAUTY & WARMTH

All Oakleaf stoves are fully Ecodesign compliant, meeting the latest European standards for efficiency and low emissions. This means every model in our collection has been designed with the environment in mind, producing a cleaner burn and reducing the release of harmful particulates into the atmosphere.

By choosing an Ecodesign stove, you're not only investing in reliable warmth for your home but also helping to protect the air we all breathe.

In addition, all of our stoves are DEFRA approved for use in smoke controlled areas, giving you complete peace of mind whether you live in the countryside or in the heart of a town or city.

These models are tested and certified to burn wood cleanly and efficiently, even in areas where strict emissions regulations apply. With Oakleaf, you can enjoy the natural beauty of a real fire without compromise wherever you live.

Ecodesign and DEFRA approval are more than just badges; they represent our commitment to building stoves that are ready for the future. Cleaner burning, lower emissions, and higher efficiency ensure that an Oakleaf stove doesn't just warm your home it does so responsibly.

A modern black wood-burning stove with a fire inside, set in a contemporary living room. To the left, a large potted plant with green, split leaves sits on a light-colored wooden surface. A portion of a light-colored sofa is visible on the far left. The background features light-colored walls and a window with white curtains. The floor is made of light-colored wood. The stove is black with a large glass window showing the fire. It has a chimney pipe on top and a small handle on the right side.

Ashworth 5

Ashworth 5

5kW MULTIFUEL STOVE

The Ashworth is the latest addition to the Oakleaf collection a striking round steel multifuel stove designed to bring both elegance and performance into your home. Its smooth cylindrical shape and flat glass viewing window create a stunning focal point, offering an uninterrupted view of the flames.

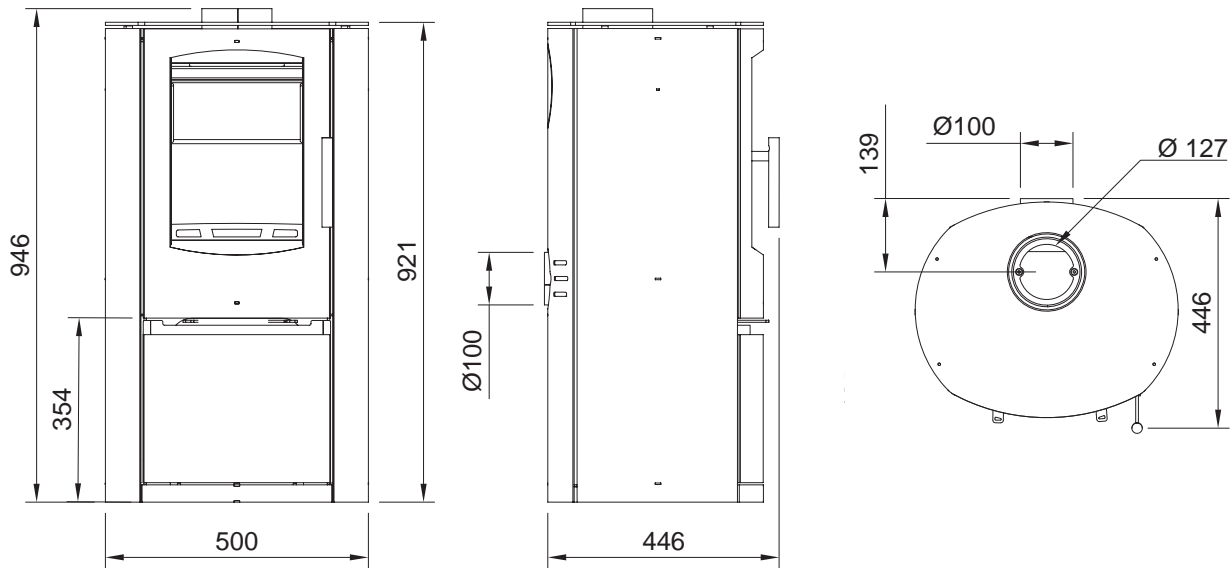

Crafted from durable high grade steel, the Ashworth combines contemporary styling with robust engineering. This versatile stove is multifuel ready, giving you the flexibility to burn wood or approved smokeless fuels with ease.
